Special symbols and features

Wolf symbol (Wild)

The Wolf symbol substitutes for all symbols (except for expanding symbol selected in Free spins bonus game). Three or more Wolf symbols anywhere on the reels trigger the Free Spins bonus game. If there are 2 or more winnings on one winning line, the biggest win is always paid off. The Wolf symbol has 2 functions - it acts as a Wild and also as a Scatter. As Wild it completes the other symbols. And if in case of 3 or more Wolf symbols (regardless of the winning lines), the player is awarded a win from the pay table corresponding to the Scatter (Wolf) symbol.

Free spins bonus game

Before the start of the free spins, the player draws one of the nine basic game symbols. During the free spins, after the standard evaluation of the winning lines, the expanding feature of the given symbol occurs. This means that if the selected symbol appears on the reels in sufficient number to win (at least 3x card symbol; 2x other symbol), the symbol will spread on all relevant reel(s) and the player will also receive a win on 10 winning lines.

It is possible to receive more free spins within the bonus game. Every single Wolf symbol is awarded one more free spin during the bonus game. In case you receive 3 Wolf symbols during one spin within the bonus game, you will receive a win and an additional 10 free spins.
