A five-reel game with 20 winning lines. Winnings are valid from left to right. During one game, you can win on multiple winning lines, which means that the winnings are added up. Only the highest win on the winning line is valid.

## SPECIAL SYMBOLS, FEATURES AND BONUS GAMES

### WILD SYMBOL

The WILD symbol supplements all the symbols except for the SCATTER symbol. If 1 WILD symbol is drawn on the winning line, the winning line is multiplied by 2. If 2 WILD symbols are drawn on the winning line, the winning line is multiplied by 4. If 3 WILD symbols are drawn on the winning line, the winning line is multiplied by 8. If 4 WILD symbols are drawn on the winning line, the winning line is multiplied by 16.

### SCATTER SYMBOL

The symbol only appears on the 2<sup>nd</sup>, 3<sup>rd</sup>, and 4<sup>th</sup> reel. Three SCATTER symbols on the reels trigger the Free Spins bonus game. The number of bonus games is determined by the winning table. In the case of a winning combination in this bonus game, all these combinations are paused, and the player receives a respin with the chance to increase his already obtained winnings. Any other winning combination is thus paused, and the player gets other respins until the first non-winning combination occurs, or until the full screen is full of paused symbols. Then, the overall winning through a given spin is determined.
